Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 422, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.529 (Lemon Regulation 422, 17 F. R. 1503) are hereby amended to read as follows:

(ii) District 2: 285 carloads.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 113, Revision 1, Amendment 3]

CPR 113—WHITE FLESH POTATOES

CHANGES IN BASE PRICES AND MISCELLANEOUS CORRECTIONS AND CLARIFICATIONS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Ceiling Price Regulation 113, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment to Revision 1, Ceiling Price Regulation 113 provides disaster adjustments for certain Western states, imposes ceiling prices for sales by growers, and makes other miscellaneous changes and clarifications.

As stated in a recent Office of Price Stabilization Agency announcement, adjustments to compensate for abnormally low quantity and quality yields of potatoes in certain Western states have been under active consideration. In addition to the data otherwise available to OPS, data have been received from the areas affected and the United States Department of Agriculture. However, in each case these adjustments have been determined by OPS on the basis of quantity and quality yield information by states supplied by the Department of Agriculture. OPS used the quantity and quality yield estimates furnished by the Department of Agriculture because it is believed that generally the facilities and experience of the Department make their estimates most reliable. However, OPS applied its own standards for disaster adjustment and made the determination of the area and the amount of each adjustment. A further adjustment of 20 cents per hundredweight has been granted for Idaho. This has been made necessary on the basis of revised information furnished by the Department of Agriculture of the grade yield figures for that state. Base prices for potatoes produced in Montana, where data reveal the same situation as in Idaho, have been revised and are now the same as for Idaho potatoes up to June 1952. One other area demonstrated the need for a disaster adjustment although the magnitude of the crop disaster was less than in Idaho and Montana. Accordingly, base prices for potatoes produced in Colorado, Nebraska, and Wyoming have been increased 20 cents per hundredweight. In computing all these adjustments, consideration was given to both quantity and quality yields and the adjustments are similar in nature to the crop disaster adjustments made in the case of certain fruits in CPR 56.

It has come to the attention of OPS that, in many areas, growers are being paid prices for bulk potatoes which prices are close to or at f. o. b. country

shipping point ceiling prices. To relieve price pressure on subsequent sellers, this amendment provides that no person may pay a grower nor may a grower receive an amount for potatoes which together with the cost of preparing the potatoes for shipment exceeds the applicable f. o. b. country shipping point ceiling price.

A new paragraph has been added to section 1 which provides that every seller shall calculate his ceiling prices as if he purchased the potatoes being sold as of the date he sells them. This eliminates any confusion as to the appropriate f. o. b. country shipping point ceiling price to be used in calculating a particular ceiling price.

Table I in section 2 (a) has also been revised to make it clear that before potatoes may qualify for a 10 cent premium, they must be both Size A and 2-inch minimum diameter or both Size A and 4-ounce minimum weight.

Table II in section 2 (b) has been revised to provide a discount of only 50 cents per hundredweight for potatoes which grade at least 60 percent U.S. No. 1.

Table III in section 2 (c) now provides packaging adjustments for potatoes packed in 25- and 50-pound cotton or burlap bags and in transparent film bags. An additional 15 cents per hundredweight is now allowed for specially crated shipments of potatoes to the Armed Forces. It is believed that this adjustment will allow the Quartermaster-General to procure the full requirement of potatoes for the Armed Forces.

Flat dollar-and-cent ceiling prices are provided for potato futures traded on the Chicago Mercantile Exchange. This will enable trading to be continued at or under these flat ceiling prices for each month.

A method of calculating the cost of transportation has been provided for those sales between points having no rail facilities. In addition, the cost of protective services used may be added to this transportation cost.

Among the miscellaneous changes effected by this amendment are the change in the method of calculating ceiling prices for sales through brokers under section 2 (g) and the specific prohibition in section 9 of certain evasion devices.

Before issuing this amendment, the Director of Price Stabilization consulted extensively with members of the industry affected, including trade association representatives, and gave consideration to their recommendations. In addition, the Director consulted with experts in other government agencies. It is the judgment of the Director that the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Revision 1 to Ceiling Price Regulation 113 is amended in the following respects:

1. Section 1 is amended in the following respects:

a. By amending paragraph (b) to read as follows:

(b) *Pricing provisions to be used.* F. o. b. country shipping point ceiling prices for potatoes and ceiling prices for growers are established under section 2 of this revised regulation. Ceiling prices for sales by intermediate sellers are established under section 3 of this revised regulation.

b. By adding a new paragraph at the end of section 1 to read as follows:

(c) *Month to be used in computation of ceiling prices.* In making sales of potatoes covered by this regulation, you shall calculate your ceiling prices as if you had purchased the potatoes being priced in the month in which you sell them.

For example: You are a carlot distributor of potatoes and you purchase in February a carlot of U. S. No. 1 potatoes produced in Maine, packed in 100-pound sacks. You sell these potatoes to a primary receiver in the month of March. Assuming that the cost of rail transportation from the country shipping point in Maine to the wholesale receiving point is \$1.00 per hundredweight for the potatoes being priced, you calculate your ceiling price as follows:

Primary price under sec. 3 (a): F. o. b. country shipping point base price per hundredweight in Maine during March (although you bought in February) \$3.70
Plus assumed cost of rail transportation plus 6 cents per hundredweight 1.00

Markup under sec. 3 (b): Your markup for sales per hundredweight of potatoes to other intermediate sellers \$0.10

Ceiling price: Your ceiling price is... 4.80

2. Section 2 is amended in the following respects:

a. By amending the heading and the introductory paragraph of section 2 to read as follows:

SEC. 2. *Ceiling prices for country shippers and growers.* If you are a country shipper, as defined in section 10, you shall calculate your f. o. b. shipping point ceiling price for potatoes by first determining a "base price". You shall then determine your "adjusted base price" by adding to or subtracting from your base price as indicated, certain grade, size and washing differentials. Finally, you shall adjust the "adjusted base price" for consumer size packaging differentials. Your final result is your f. o. b. country shipping point ceiling price per hundredweight for potatoes prepared for shipment and loaded on a carrier.

If you are a grower who is not a country shipper, as defined in section 10, your ceiling prices for potatoes are determined as provided in paragraph (h) of this section.

b. By amending Table 1 in section 2 (a) to read as follows:

(For sales to the Armed Forces only.)	

f. Section 2 (g) is amended to read as follows:

(g) *Sales through brokers.* If you are a country shipper and make delivered sales under section 2 (d) of this regulation at a wholesale receiving point through a broker or agent other than a commission merchant, your ceiling price for such sales shall be your delivered ceiling price as calculated under section 2 (d) of this regulation plus such broker's charge (not in excess of that permitted under the provisions of Ceiling Price Regulation 34).

g. By adding at the end of section 2 a new paragraph to read as follows:

(h) *Ceiling prices for growers who are not country shippers.* If you are a grower who is not a country shipper, as defined in section 10, your ceiling price for the sale of potatoes, whether the sale be of acreage, potatoes in bulk, or otherwise, is the adjusted base price, determined as provided in paragraph (b) of this section, further adjusted as follows:

(1) You must deduct the cost of each of the following services which you do not perform: harvesting, grading, sizing, hauling from the farm to the country shipping point, and loading on the carrier.

(2) If the potatoes are not storage potatoes, as defined in section 10, and you do not wash them, you must deduct the cost of washing.

(3) If you do not pack the potatoes you must deduct the cost of packing in 100-pound new burlap bags.

(4) If you pack the potatoes in a type of container listed in subdivisions b through f of Table III you may add and you must subtract the applicable amount specified in that table.

(5) You must also deduct the country shipper's selling charge.

The cost or charge to be deducted in subparagraphs (1), (2), (3), and (5) of this paragraph is the cost or charge prevailing in the area in which your farm is located.

For example: Assume you are a grower of potatoes and are selling in March unwashed storage potatoes in bulk ex your farm located in Maine. The base price, determined from Table I, is therefore \$3.70. You have not graded and sized the potatoes. For that portion which the buyer grades and sizes as U. S. No. 1 2-inch minimum diameter, the adjusted base price under paragraph (b) of section 2 is the base price plus 10 cents, or \$3.80. Assume that the prevailing cost of grading, sizing and packing in new 100-pound burlap bags is 55 cents per hundredweight, the prevailing cost of hauling and loading on carrier is 10 cents per hundredweight, and the prevailing country shipper's selling charge is 10 cents per hundredweight. Your total deductions would therefore total 75 cents per hundredweight and your ceiling price would be \$3.05 per hundredweight that is \$3.80 less \$0.75. For other grades, sizes and packs of the lot, you determine your ceiling prices in the same manner using the appropriate applicable differentials.

3. Section 5 is amended to read as follows:

SEC. 5. *Potato futures*—(a) *New York Mercantile Exchange futures contracts.* The ceiling prices per hundredweight at which U. S. No. 1, Size A 2-inch minimum white flesh potatoes covered by futures contracts may be traded in the New York Mercantile Exchange pursuant to the rules of the New York Mercantile Exchange as of January 1, 1952, or delivered pursuant to such contracts are as follows:

TABLE IV—CEILING PRICES FOR POTATOES TRADED ON THE NEW YORK MERCANTILE EXCHANGE

DELIVERY DATE			
February	March	April	May
\$4.31	\$4.41	\$4.46	\$4.51

(b) *Chicago Mercantile Exchange futures contracts.* The ceiling prices per hundredweight at which U. S. No. 1, Size A 2-inch minimum white flesh potatoes covered by futures contracts may be traded in the Chicago Mercantile Exchange pursuant to the rules of the Chicago Mercantile Exchange as of November 26, 1951, or delivered pursuant to such contracts are as follows:

TABLE V—CEILING PRICES FOR POTATOES TRADED ON THE CHICAGO MERCANTILE EXCHANGE

DELIVERY DATE			
February	March	April	May
\$5.20	\$5.30	\$5.35	\$5.40

4. Section 9 is amended by adding at the end of paragraph (b) the following sentence: "The ceiling prices and markups established by this regulation may not be exceeded by buyers or sellers by splitting or sharing of markups, pyramiding of services, joint account transactions or otherwise."

5. Section 10 (g) is amended to read as follows:

(g) "Cost of rail transportation" means the amount calculated by application of the lowest applicable carlot rate for transportation per cwt. of potatoes by rail. If you ship potatoes in any quantity by rail, truck, or ship owned, leased, chartered, or otherwise engaged by you, you shall, in computing your "cost of rail transportation", use the lowest applicable carlot rate for transportation by rail. However, if you cannot thus compute your cost of rail transportation because rail transportation facilities are not available between the country shipping point and the wholesale receiving point, you may use the actual cost of the available transportation facility employed by you not to exceed the prevailing rate for such transportation. "Cost of rail transportation" also includes the cost of protective services, such as fumigation, pre-heating, and pre-cooling, actually rendered and charged by the carrier, or, if not rendered and charged by the carrier, the cost of such services not to exceed the applicable ceiling prices for such services established under CPR 34.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective February 21, 1952.

[General Ceiling Price Regulation, Supplementary Regulation 83, Amdt. 1 to Area Milk Price Regulation 12]

GCPR, SR 63—AREA MILK PRICE
ADJUSTMENTS

AMPR 12—SAN FRANCISCO DISTRICT,
CALIFORNIA, MILK MARKETING AREAS

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), the Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Area Milk Price Regulation 12 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Area Milk Price Regulation 12 was issued January 31, 1952, adjusting ceiling prices for fluid milk products in the marketing areas included within the San Francisco District, California, of the Office of Price Stabilization. A separate appendix was provided for each such marketing area. Appendix II to Area Milk Price Regulation 12 covers the Alameda-Contra Costa marketing area. Data submitted by the industry in that area indicated that cost increases for both raw materials and distribution were such as to warrant establishment of ceiling prices no higher than set forth in that Appendix.

It appears that information submitted by at least two members of the industry was in error as to raw materials and distribution costs and as to allocation of such costs. Revised data now submitted by these two firms and verified by the San Francisco District Office show raw material and distribution costs higher than those originally submitted.

If this corrected data had been available to the District Director to be considered in conjunction with other available data, the following ceiling prices for fluid milk products would have been established:

(1) Quart containers (fiber or glass)—\$0.1950 at Wholesale, rather than \$0.1925, and \$0.22 Retail Store carry-out, rather than \$0.215.

(2) Half gallon containers (fiber or glass)—\$0.39 at Wholesale, rather than \$0.385 and \$0.44 Retail Store carry-out, rather than \$0.43.

(3) Gallon bottle—\$0.78 at Wholesale, rather than \$0.77 and \$0.88 Retail Store carry-out, rather than \$0.86.

The purpose of this amendment is to establish ceiling prices, based on the corrected data, as set forth in (1), (2) and (3) above. Retail home delivery prices are not affected by this amendment.

Due to a clerical error Appendix V, which covers the Monterey-Santa Cruz Marketing Area, sets forth the ceiling price for gallon bottles of milk at Wholesale at \$0.77, rather than the correct ceiling price of \$0.78, and the Retail Store carry-out ceiling price for gallon bottles of milk at \$0.86 rather than the correct ceiling price of \$0.88.

In the judgment of the District Director the provisions of this amendment to Area Milk Price Regulation No. 12 in Region XII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act amendments of 1951.

The District Director of the Office of Price Stabilization gave due consideration to the national effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability. The director consulted the industry involved to the fullest extent practicable prior to the issuance of this

amendment to Area Milk Price Regulation No. 12.

AMENDATORY PROVISIONS

1. Appendix II to Area Milk Price Regulation 12 is hereby revoked and Appendix II, Revision 1, which appears hereafter, is substituted therefor.

2. Appendix V to Area Milk Price Regulation 12 is hereby revoked and Appendix V, Revision 1, which appears hereafter, is substituted therefor.

This waiver order is a temporary measure granted purely in the interest of national defense and will cease to be in effect on July 1, 1952. The purpose of the proposed amendment is to change the method of computing hourly rates charged for services of a storekeeper or a customs employee temporarily assigned to act as a storekeeper at a bonded warehouse, for the services of a customs employee in preparing copies of records for parties in interest, and for services rendered by customs employees which are reimbursable pursuant to § 24.17, Customs Regulations of 1943 (19 CFR 24.17). The change in the method of computing such hourly rates is appropriate because of the change in the leave provisions contained in Title II of Public Law 233, 82d Congress, 1st Session, approved October 30, 1951, effective January 6, 1952.

2. Section 24.12 (b), Customs Regulations of 1943 (19 CFR 24.12 (b)), as amended, is hereby further amended by deleting the fourth sentence and inserting in lieu thereof the following: "The cost of such labor shall be computed in multiples of 1 minute based on an hourly rate computed in accordance with § 19.5 (b) of this chapter. There shall also be

included in the cost of such labor any amount actually payable to the employee for services outside his basic 40-hour workweek."

FEES AND CHARGES

NOTICE OF PROPOSED RULE MAKING

Request has been made, in order to assist persons in the preparation of comments on the above proposals, for estimates of the sums which will be received if the proposed fees are imposed. Although any statement of expected receipts necessarily can be no more than an approximation, it is estimated that

total annual receipts from the adoption of the above proposals, when fully effective, would be about \$1,225,000; this amount would be somewhat less in 1952. Estimates of receipts under the specific proposals are as follows:

(1) Letters of notification and other exemptive filings under sec. 3 (b) of the Securities Act.....	\$35,000
(2) Qualification of trust indentures covering securities required to be registered under the Securities Act.....	9,000
(3) Annual registration fee payable by investment companies.....	200,000
(4) Annual registration fee payable by broker-dealers.....	455,000
(5) Annual registration fee payable by investment advisers.....	45,000
(6) Annual registration fee payable by public utility holding companies, including certain conditionally exempt public utility holding companies.....	475,000
(7) Photo-duplications and certifications (income attributable to proposed increase).....	6,000

These receipts would be in addition to the present fees received by the Commission which in fiscal year 1951 totalled \$1,082,280, as follows:

Registration of securities issued.....	\$612,505
Qualification of trust indentures.....	700
From registered exchanges.....	456,800
Sale of copies of documents or portions thereof.....	13,275

Any fees received under the proposed rules, as well as existing fees, must be turned into the general fund of the Treasury and are not available for expenditure by the Commission. Total fees to be received under the proposed rules together with existing fees will be considerably less than the Commission's budget.

By the Commission.

Secretary.

SEC. 2. Limit of acreage for which entry may be made or water secured. The public lands covered by this notice have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Secretary of the Interior, may reasonably be required for the support of a family upon such land. The areas in the different units are fixed at the amounts shown upon the farm unit plats referred to in section 1 of this notice. The maximum acreage of land in private ownership for which application for delivery of water may be made is 160 acres of irrigable land for each landowner.

PREFERENCE RIGHTS OF VETERANS

SEC. 3. Nature of preference. The law provides that when public lands are opened to entry preference shall be given to applications which are made by certain veterans (and in some cases by their wives, husbands, or guardians of minor children) and which are filed within three months after the opening of the lands. The six classes of persons who are entitled to this veterans preference are set forth in section 4 of this notice.

Therefore, applications for farm units on public lands covered by this notice which are made by persons coming within one of the six classes listed in

section 4 of this notice will be given first consideration if submitted before 2:00 p. m., May 20, 1952.

In order to be eligible to receive farm units, all applicants, whether or not entitled to veterans preference, must possess the necessary qualifications as to industry, experience, character, capital, and physical fitness (see section 7 of this notice) and (except for duly appointed guardians) must be qualified to make entry under the homestead laws.

SEC. 4. Persons entitled to veterans preference. The classes of persons who are entitled to the veterans preference described in section 3 of this notice are as follows:

(a) Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States for a period of at least 90 days at any time on or after September 16, 1940, and prior to the termination of World War II, and have been honorably discharged.

(b) Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in paragraph (a) of this section, regardless of length of service, and who have been discharged on account of wounds received or disability incurred during such period in the line of duty, or, subsequent to a regular discharge, have been furnished hospitalization or awarded compensation by the Government on account of such wounds or disability.

(c) The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See section 9 of this notice regarding provision that a married woman must be head of a family.)

(d) The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person, by a guardian duly appointed and officially accredited at the Department of the Interior.

(e) The surviving spouse of any person whose death has resulted from wounds received or disability incurred in the line of duty while serving in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in paragraph (a) of this section, or in the case of the death or marriage of such spouse, the minor child or children of such person, by a guardian duly appointed and officially accredited at the Department of the Interior.

(f) Persons who have served in the United States Army, Navy, Marine Corps or Coast Guard during the War with Germany which commenced April 6, 1917, and terminated March 3, 1921, or during the War with Spain or the Suppression of the Insurrection in the Philippines, which war and insurrection commenced April 21, 1898, and terminated July 15, 1903, and were honorably separated or discharged therefrom or placed in the Regular Army or Naval Reserve.

SEC. 5. Definition of honorable discharge. An honorable discharge means:

(a) Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

(b) Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component, or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

QUALIFICATIONS REQUIRED BY THE RECLAMATION AND HOMESTEAD LAWS

SEC. 6. Examining Board. An examining board of four members, including the Chief, Operations Division, of the Lower Colorado River District, Bureau of Reclamation, who will act as secretary of the board, has been approved by the Commissioner of Reclamation to determine the qualifications and fitness of applicants to undertake the development and operation of a farm on the Yuma Mesa Division, Gila Project. The board will make careful investigations to verify the statements made by applicants. Any false statement may constitute grounds for rejection of an application, cancellation of award, or cancellation of an entry.

SEC. 7. Minimum qualifications. This section sets forth the minimum qualifications which are necessary to give reasonable assurance of success of an entryman or entrywoman on a Reclamation farm unit. Applicants must, in the judgment of the examining board, meet these qualifications in order to be considered for entry. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the required minimum.

The minimum qualifications are as follows:

(a) Character and industry. An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

(b) Farm experience. Except as otherwise provided in this subsection, an applicant must have had a minimum of two years (24 months) full-time farm experience, which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which, in the opinion of the board, will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm

after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such a nature as, in the judgment of the examining board, will qualify the applicants to undertake the development and operation of an irrigated farm by modern methods.

(c) *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

(d) *Capital.* An applicant must possess assets worth at least \$6,000 in excess of liabilities. Assets must consist of cash, property or assets readily convertible into cash, or assets such as livestock, farm machinery and equipment, which, in the opinion of the board, will be useful in the development and operation of a new, irrigated farm. In considering the practical value of property which will be useful in the development of a farm, the board will not value household goods at more than \$500 or a passenger car at more than \$500. An applicant may be required to furnish a certified financial statement showing all of his assets and all of his liabilities. (See section 15 of this notice.) Assets not useful in the development of a farm will be considered if the applicant furnishes, at the board's request, evidence of the value of the property and proof of its conversion into useful form before the issuance of a certificate of qualification.

Sec. 8. Other qualifications required. All applicants (except guardians) must meet the requirements of the homestead laws. The homestead laws require that an entryman or entrywoman:

(a) Must be a citizen of the United States or have declared an intention to become a citizen of the United States.

(b) Must not have exhausted the right to make homestead entry on public land.

(c) Must not own more than 160 acres of land in the United States.

(d) Must, if a married woman, or a person under 21 years of age who is not eligible for veterans preference, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family. Complete information concerning qualifications for homesteading may be obtained from the Land and Survey Office of the Bureau of Land Management at Phoenix, Arizona, or from the Director of that Bureau, Washington 25, D. C.

Sec. 9. Restriction on ownership of project lands. Applicants for certificates of qualification must not hold or own, within any Federal Reclamation project, irrigable land for which construction charges payable to the United States have not been fully paid, except that this restriction does not apply to small tracts used exclusively for residential purposes.

Prior to the issuance of a certificate of qualification and not later than the time

of the personal interview, an applicant who owns lands in a Federal Reclamation project must furnish satisfactory evidence that the total construction charges allocated against the land owned by the applicant have been paid in full.

WHERE AND HOW TO APPLY FOR A FARM UNIT

Sec. 10. Application blanks. Any person desiring to enter any of the public land farm units described in this notice must fill out the attached application blank. Additional application blanks may be obtained from the Bureau of Reclamation, Yuma, Arizona; the Regional Director, Bureau of Reclamation, Boulder City, Nevada; or the Commissioner of Reclamation, Department of the Interior, Washington 25, D. C.

Sec. 11. The filing of application. An application for a certificate of qualification for a farm unit listed in this notice must be filed with the District Manager, Lower Colorado River District, Bureau of Reclamation, Yuma, Arizona, in person or by mail. No advantage will accrue to an applicant who presents an application in person.

Sec. 12. Applications become Department records. Each application submitted, including evidence of qualification to be submitted following the public drawing, will become a part of the records of the Department of the Interior and cannot be returned to the applicant. For this reason, original discharge or citizenship papers should not be submitted. In case an applicant is awarded a farm, the copy of his discharge papers will be attached to his certificate of qualification (see section 19 of this notice) for submission to the Bureau of Land Management.

SELECTION OF QUALIFIED APPLICANTS

Sec. 13. Priority of applications. All applications will be classified for priority purposes and considered in the following order:

(a) *First Priority Group.* All complete applications filed prior to 2:00 p. m., May 20, 1952, by applicants who claim veterans preference. All such applications will be treated as simultaneously filed.

(b) *Second Priority Group.* All complete applications filed prior to 2:00 p. m., May 20, 1952, by applicants who do not claim veterans preference. All such applications will be treated as simultaneously filed.

(c) *Third Priority Group.* All complete applications filed after 2:00 p. m., May 20, 1952. Such applications will be considered in the order in which they are filed if any farm units are available for award to applicants within this group.

Sec. 14. Public drawing. After the priority classification, the board will conduct a public drawing of the names of the applicants in the First Priority Group as defined in section 13 (a) of this notice. Applicants need not be present at the drawing in order to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units to be awarded) shall be drawn and num-

bered in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this notice, and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the board shall notify each applicant of his respective standing as a result of the drawing.

Sec. 15. Submission of evidence of qualification. After the drawing a sufficient number of applicants, in the order of their priority as established in the drawing, will be supplied with forms on which to submit evidence of qualification showing that they meet the qualifications set forth in sections 7 and 8 of this public notice and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 4 of this public notice. Full and accurate answers must be made to all questions. The completed form, together with any attachments required, must be mailed or delivered to the District Manager, Bureau of Reclamation, Yuma, Arizona, within 30 days of the date the form is mailed to the last known address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the period specified will subject his application to rejection.

Sec. 16. Final examination. After the information requested as outlined in section 15 of this notice has been received or the time for submitting such statements has expired, the board shall examine in the order drawn a sufficient number of applications, together with the evidence of qualification submitted, to determine the applicants to whom certificates of qualification will be issued. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants. If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the board for the purpose of: (a) Affording the board any additional information it may desire relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (c) affording the applicant an opportunity to examine the farm units. If the applicant fails to appear before the board for a personal interview when requested he shall thereby forfeit his priority as established by the drawing.

If the board finds that an applicant's qualifications fulfill the requirements prescribed in this notice, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units then available. A certificate of qualification will not be issued to an applicant who owns more than 160 acres of land in the United States. Therefore, an applicant may be required by the examining board, prior to the issuance of a certificate of

qualification, to submit evidence satisfactory to the board that he does not own more than 160 acres.

If the applicant fails to supply any of the information required or the board finds that the applicant's qualifications do not meet the requirements prescribed in this notice, the applicant shall be disqualified and shall be notified by the board, by registered mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 3, Bureau of Reclamation. All appeals must be received in the office of the District Manager of the Lower Colorado River District within 15 days of the applicant's receipt of such notice, or in any event, within 30 days from the date the notice is mailed to the last address furnished by the applicant. The District Manager will forward the appeals promptly to the Regional Director. The Regional Director's decision on all appeals shall be final.

SELECTION OF FARM UNITS

SEC. 17. Order of selection. The applicants who have been notified of their qualification for the award of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his entry filing with the Bureau of Land Management, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this notice remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit, and if additional applicants remain in the First Priority Group, the board will follow the same procedure outlined in section 14 of this notice in the selection of additional applicants from this group.

If any of the farm units remain unselected after all qualified applicants in the First Priority Group have had an opportunity to select a farm unit, the board will follow the same procedure to select applicants from the Second Priority Group and they will be permitted to exercise their right to select a farm unit in the manner prescribed for the qualified applicants from the First Priority Group.

Any farm units remaining unselected after all qualified applicants in the Second Priority Group have had an opportunity

to select a farm unit will be offered to applicants in the Third Group in the order in which their applications were filed, subject to the determination of the board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this notice.

In the event, however, that a farm unit remains unentered at the expiration of two years following the date of the notice, unless the unit is withdrawn from the notice, new applications will be accepted in respect to the unit and it shall be awarded to the first applicant who files an application after the expiration of the two-year period and who meets the qualification prescribed by the notice, without regard to veterans preference.

SEC. 18. Failure to select. If any applicant refuses to select a farm unit or fails to do so within the time specified by the board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

SEC. 19. Payment of charges and filing homestead applications. After each qualified applicant has advised the board of his selection of a farm unit, he shall be notified by the board of the annual construction, water rental, or other charges, payment of which must be received at the office of the Lower Colorado River District within 15 days of the receipt by the applicant of such notice. The contract and mortgage securing the payment of the predevelopment charges mentioned in section 20 (c) required in connection with said farm unit will be delivered to him for execution and acknowledgement. Upon receipt by the District Manager of such payment from the applicant before the expiration of said 15-day period, together with such contract and mortgages executed and acknowledged by the applicant and accompanied by the fees necessary for the recording thereof, the board shall furnish each applicant, by registered mail or by delivery in person, a certificate of qualification stating that the applicant's qualifications to enter public lands have been examined and approved by the board. Such certificate must be attached by the applicant to the homestead application, which application must be filed at the Land and Survey Office, Bureau of Land Management, Phoenix, Arizona. Such homestead application must be filed within 15 days from the date of the receipt by the applicant of such certificate. Failure to pay the annual construction, water rental, or other charges required including the recording fees, to execute and deliver the contract and mortgages and to make application for homestead entry within the period specified herein will render the application subject to rejection.

SEC. 20. Construction and other charges. The Reclamation Law provides that, except during a "development period" fixed by the Secretary of the Interior, water may not be delivered for the irrigation of lands until an organization, satisfactory in form and powers to the Secretary, has entered into

a contract with the United States providing for the repayment of the project construction and other costs allocated to such irrigated lands, exclusive of the predevelopment charges mentioned in paragraph (c) of this section. Pursuant to sections 2 (j) and 7 (b) of the Reclamation Project Act of 1939, the lands described in section 1 of this public notice are hereby designated a development unit. The development period for the lands so designated is hereby fixed at a period of ten years from and including the first year in which water is delivered. The inclusion of all the lands described in section 1 within an organization of the type described and the execution by such organization of a contract covering the repayment of the construction and other costs allocated to such lands, exclusive of said predevelopment charges, is a prerequisite to the delivery of water to such lands after the expiration of the development period. (See paragraph (b) of this section in this connection.) The term "construction charges" as herein used includes all net expenditures attributable to predevelopment, exclusive of those covered by the predevelopment charges mentioned in paragraph (c) of this section.

(a) **Water rental charges.** The following water rental charges shall be applicable during calendar year 1952 and thereafter until further notice:

(1) For those lands described in Section 1 irrigated hereunder before July 1, 1952, and under irrigation prior to January 1, 1951, the minimum charge shall be \$7.20 per acre for each acre for which water is requested, payment of which will entitle the applicant to 8 acre-feet of water per acre. Additional water will be furnished at the rate of \$1.00 per acre-foot. If applicant so requests with respect to calendar year 1952 or any subsequent calendar year, one-half of said minimum charge may be paid on January 1 and such payment will entitle the applicant to one-half of the allotment of water per acre as set forth above. The balance of said minimum charge shall be paid on July 1 of such year, or at such time as the applicant requires more than one-half of said total allotment of water, whichever is sooner, and payment thereof shall entitle the applicant to remaining one-half of said allotment of water per acre. Water in excess of the allotment of water per acre as set forth above will be furnished at the rate of \$1.00 per acre-foot. *Provided, however,* That each applicant for a public land farm unit in order to obtain a certificate of qualification as set forth in section 19 above must pay the minimum annual water rental charge for not less than thirty-five (35) acres and, in addition, must pay at least one-half of the minimum annual water rental charge for any fully predeveloped land in the farm unit in excess of thirty-five (35) acres. In the event that an entryman who pays such water rental charge does not use his said allotment of water per acre before January 1, 1953, because of the date when he receives the award of his farm unit, credit for the unused portion of such charge shall be applied against the minimum charge for the calendar year 1953 provided his

entry then remains intact and in good standing.

(2) For those lands described in section 1 irrigated hereunder before July 1, 1952, and not under irrigation prior to July 1, 1951, the minimum charge shall be \$7.20 per acre for each acre of land for which water is requested during 1952, payment of which will entitle the applicant to the base allotment of 8 acre-feet of water per acre, plus 4 acre-feet of water per acre without additional charge for the establishment of a new crop on raw land. For those lands described in section 1 first irrigated after July 1, 1952, and prior to January 1, 1953, there will be a charge of \$0.90 per acre-foot for the first 4 acre-feet of water per acre. Payment of the minimum charge on 4 acre-feet of water per acre will entitle the applicant to an additional allotment of 2 acre-feet of water per acre without further charge. For those lands described in section 1 first irrigated after July 1, 1952, and prior to January 1, 1953, the payment of the minimum charge for 1953 will entitle the applicant to the base allotment of 8 acre-feet of water per acre, plus 4 acre-feet per acre without further charge for that calendar year. Water in addition to the above amounts will be furnished at the rate of \$1.00 per acre-foot.

(3) The foregoing charges are subject to all provisions of the Federal Reclamation Law relative to collections and penalties for delinquencies. The charges will be paid at the office of the District Manager, Lower Colorado River District, Bureau of Reclamation, Yuma, Arizona. No applicant shall be entitled to receive water unless he has paid therefor in advance nor shall he in any event be entitled to receive water hereunder during any period when he is in default in compliance with any requirement imposed by or pursuant to this public notice or any application for water service during development period made hereunder.

(b) *Construction charges.* The per-acre construction charges allocable to the land described in section 1 are not determinable at this time, but will be announced in a subsequent public notice. Repayment of construction charges as later determined and announced by the Secretary of the Interior will be made over a period of 60 years following a development period of 10 years for all the public and private lands described in section 1. A repayment contract will be negotiated with the organization representing the water users prior to the termination of the 10-year development period. The development period fixed under Gila Project Public Notice No. 4 announcing availability of water for public, state and private lands and opening of public lands to entry, will expire at a date, not yet specified by the Secretary of the Interior, earlier than the date on which the development period hereinabove fixed will expire. Since the organization proposed to be created for the purpose of executing a repayment contract herein will be expected to include, among others, the development unit designated by this public notice as well as the development unit designated by said Public Notice No. 4, execution of

such contract will be required substantially in advance of the expiration of the development period fixed under this public notice.

(c) *Predevelopment charges.* Full predevelopment consists of leveling the land, installing farm ditches, structures and turnouts, applying fertilizer, and establishing a crop of alfalfa for soil improvement purposes. Full predevelop-

ment has been completed on the irrigable acres of two of the units described in section 1. The other units are in various stages of predevelopment ranging from the furnishing of irrigation turnouts to full predevelopment of limited acreages. The following public land farm units contain predeveloped irrigable acreages to the extent hereinafter indicated:

(1) The amounts to be included in the contracts and mortgages with respect to fully predeveloped lands will be computed at the rate of \$150.00 for each fully predeveloped acre. These amounts will be repayable over a period of 30 years at the following rates: \$4.00 per predeveloped acre semiannually during the first 10 years commencing December 1, 1952, and about \$1.75 per predeveloped acre semiannually for the remainder of said 30-year period.

(2) The amounts to be included in the contracts and mortgages with respect to partially predeveloped lands will be computed at the rate of \$44.79 per acre for rough leveling and at the rate of \$16.70 per acre for furnishing turnouts. These amounts will be repayable in 50 equal semiannual installments commencing June 1, 1957, and ending December 1, 1982. Such turnouts shall include two head walls and six lengths of pipe per acre which shall be removed by the entrymen from the Gila Project storage yard and installed by them on their respective farm units.

(3) Such predevelopment charges shall be a lien upon each such farm unit in the amount shown therefor in Column 7 of the above table and shall be secured by individual contracts and mortgages, executed in conformity with section 19 above, prior to actual entry on the land. In the event that any person hereafter becomes entitled, by reason of assignment, death or otherwise, to any of the rights of any entryman herein, such person shall be required to execute, acknowledge and deliver an individual contract and mortgage covering prede-

velopment charges for the farm unit involved to the District Manager, Lower Colorado River District. Failure of any entryman to pay any installment of such charges when due shall render his entry subject to cancellation upon the request of the Commissioner of Reclamation or his duly authorized representative.

(4) Existing crops on the farm units which have been fully predeveloped are under leases which will be cancelled before December 31, 1951, if the growing crops will not be jeopardized because of delay in transfer of the units to entrymen. If entry is delayed the Regional Director, Region 3, Bureau of Reclamation, may extend such leases on terms which will enable the successful homestead applicant in each case to occupy not to exceed two acres in any location on the unit, to construct dwellings or other improvements thereon, and to utilize those portions of his unit which are not under lease. Farm Unit "G" Section 28, Township 9 South, Range 23 West, has been utilized in an experimental project by the Bureau of Plant Industry, Soils and Agricultural Engineering, United States Department of Agriculture under the terms of a Memorandum of Understanding dated October 10, 1951, copy of which is on file in the office of the District Manager, Lower Colorado River District, Bureau of Reclamation, Yuma, Arizona. Such project is scheduled to continue to about December 31, 1956, with respect to the following described tract: The North 2 acres of the NE $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 28, Township 9 South, Range 23 West, Gila and Salt River Meridian, but may be sooner ter-

minated as provided in said Memorandum. The entryman on this farm unit will be required to cooperate with the Bureau of Plant Industry, Soils and Agricultural Engineering, in the use of a stub ditch common to said tract and said farm unit, in the utilization of an access bridge across said stub ditch and in the prosecution of an adequate weed and rodent control program.

(d) *Water rental and construction charges applicable to state and private lands.* Water rental and construction charges applicable to state and private lands will be the same as for public lands as shown under paragraphs (a) and (b) of this section, but state and private lands will not be subject to the predevelopment charges mentioned in paragraph (c) of this section.

GENERAL PROVISIONS

SEC. 21. Warning against unlawful settlement. No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice, except under the terms and conditions prescribed by this notice.

SEC. 22. Reservation of rights-of-way for public roads. Rights-of-way along section lines and other lines shown in red on the farm unit plats described in section 1 of this notice are reserved for county, state, and Federal highways and access roads to the farm units shown on said farm unit plats.

SEC. 23. Reservation of rights-of-way for publicly owned utilities. Rights-of-way are reserved for Government-owned telephone, electric transmission, water and sewer lines, and water treating and pumping plants, as now constructed, and the Secretary of the Interior reserves the right to locate such other Government-owned facilities over and across the farm units above described as hereafter, in his opinion, may be necessary for the proper construction, operation, and maintenance of the said project.

SEC. 24. Waiver of mineral rights. All homestead entries for the above-described farm units will be subject to the laws of the United States governing mineral land, and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Bureau of Land Management; otherwise, the homestead applications will be rejected or the homestead entry or entries canceled.

SEC. 25. Effect of relinquishment. In the event that any entry of public land made hereunder shall be relinquished at any time prior to actual residence upon the land by the entryman for not less than one year, the land so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the Land and Survey Office. Applications conforming to the requirements of this public notice may be filed for a period of 15 days after the expiration of said 60-day period. Such applications will be considered and processed and awards made pursuant to the provisions of this public notice.

SEC. 26. Reclamation proof. Final Reclamation proof may be submitted simultaneously with submission of homestead proof, which must be submitted within five (5) years from date of allowance of entry, but in any event final Reclamation proof must be submitted within ten (10) years of the allowance of the entry. For the two years immediately preceding the submission of Reclamation proof, the cultivation must be performed personally by the entryman, by members of his immediate family residing with him or by persons employed under his direction, supervision and management. Failure to submit the Reclamation proof within the required time will subject the entry to cancellation.

NOTE: The reporting requirement of this public notice has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.
